

Riverton Review

April 2020 - Happy Easter

Riverton Tower COVID19 Survival 101

by Becky Davis

The Riverton Tower staff is diligently working to keep our common areas as germ free as possible. Elevator railings and buttons inside and outside are wiped down with Lysol at least 3 times daily. On every floor the elevator landing, garbage chute, and inside and outside of all exit door handles wiped down with bleach 3 times daily. Railings in our stairwells are being wiped with Lysol daily. The laundry room washers, dryers, tables and exit handles are wiped down at least 2 times daily. All public bathrooms are bleached and cleaned. Every table/flat surface, vending machine, refrigerator, including the coffee area in the Poolside Cafe is wiped down with Lysol wipes. The mailboxes are wiped down several times daily. Our housekeeping staff are doing these extra steps in addition to their daily jobs of mopping and vacuuming.

Each of you can also help stop the spread of the corona virus. Disinfect your homes as well as you can. Diligently wash your hands and keep them away from your face. Remember to keep your distance (6 feet) from each other. This includes while in the laundry room and lobby, at the mail boxes, and particularly in the elevator. If there are more than a couple people on the elevator, make the choice to wait for the next elevator to arrive, or if able use the stairs.

Let's all practice strict hygiene and social distancing to help stop the spread of germs.

Knit Cro Club News

by Dorothy Jones

In keeping with the CDC and the Mayor of Jacksonville's recommendations, the Knit Cro Club has suspended meetings until it is deemed safe to hold them. I hope everyone is well and working on projects.

On a lighter note, Kathy Faryon, Associate Member, sent me a text recommending the club stop making hats, scarves, afghans and blankets and begin immediately crocheting rolls of toilet paper! She also sent a picture of an armored car delivery, the content of which was a roll of toilet paper. Linda Carter sent a picture of a minister holding rolls of toilet paper, praying God would multiply them and one of a woman using a bra to make face masks. The world as we knew it has changed. We will resume club meetings on Tuesdays as soon as possible.

Pool Releases

Every resident intending to swim in the pool must have a pool release on file. If you completed one in previous years, you do not need to sign a new one. However, guests of a resident must also sign a pool release and must be accompanied by the resident in the pool area at all times. The Rental Office has pool releases available.

Cigarette Butts

Please dispose of cigarette butts in the receptacle or ashtrays that are located in the stairwells and outside the building for this purpose. Under Florida State Statute 403.413, if you throw a cigarette butt on the ground/floor you are committing a noncriminal infraction, punishable by a civil penalty of \$100.00. Thank you for helping us keep our property clean.

Photo of the Month

by Emil Kotik

EASTER EGGS? Nope. These are eggs of a pair of Eastern Bluebirds. This photo was taken on March 16 at the Bluebird House at the far end of our woods. The eggs are each about the size of jelly beans.

Riverton Review

Contributions are welcome to include news, items of interest, tid-bits, and activity information.

Email info to Alan Abel by the 25th of the month for inclusion in the next Riverton Review.

STOP THE SPREAD OF GERMS

Help prevent the spread of respiratory diseases like COVID-19.

Avoid close contact with people who are sick.

Cover your cough or sneeze with a tissue, then throw the tissue in the trash.

Clean and disinfect frequently touched objects and surfaces.

Avoid touching your eyes, nose, and mouth.

Stay home when you are sick, except to get medical care.

Wash your hands often with soap and water for at least 20 seconds.
